(54) COMPOSITION FOR OXIDATION DYEING OF  
 KERATINOUS FIBER AND DYEING METHOD  
 BY USING THE COMPOSITION

(57) Abstract

**PROBLEM TO BE SOLVED:** To obtain a dyeing composition for carrying out the coloring having sufficient strength, chromaticity and resistance to various attacking elements to be received by the hair, and further to provide a dyeing method.

**SOLUTION:** This dyeing composition contains at least two oxidation base different from each other, selected from para-phenylenediamines, double bases, para-aminophenols, ortho-aminophenols and heterocyclic oxidation bases, and a coupler selected from a 2-substituted 5-aminoalkylphenol derivative of the for-
